## Radical Impressionist: A Mathematician Paints

Following a life-long dream, Karen Halbert has become a full-time oil painter, often painting “en plein air” in the fields of New Mexico. Driven by the light of the southwest, Halbert made a life-style decision to move from NYC to Santa Fe, leaving behind careers as a Wall Street executive and college Professor of Mathematics and Computer Science. Halbert has transformed the beauty and purity of mathematics into her art, utilizing her knowledge of areas such as dynamic symmetry and chaos theory.

It is in Santa Fe that she has found a true artist’s home. You may now see her work at:

- her studio/gallery in Las Campanas
- her website, [www.karenhalbert.com](http://www.karenhalbert.com)
- the Marigold Arts Gallery, 424 Canyon Road in Santa Fe, [www.marigoldarts.com](http://www.marigoldarts.com).

Halbert is active in the Plein Air Painters of New Mexico (PAPNM), serving as the Webmaster.

In this artist-rich community Halbert has found invaluable mentors: Albert Handell, Bill Gallen, Doug Higgins and Roger Williams among others. In addition she has worked with internationally known Master Impressionist, Lois Griffel.

Be sure to visit the Recent tab on her website, [www.karenhalbert.com](http://www.karenhalbert.com) as she frequently updates it with new work.
